Mini cabin for olfactory tests

Plug & play cabin

Takes up little space but simulates any size room

OUR OBJECTIVE

provides a

| NEW EXPERIENCE

CONFIGURE, EVALUATE, RESET !

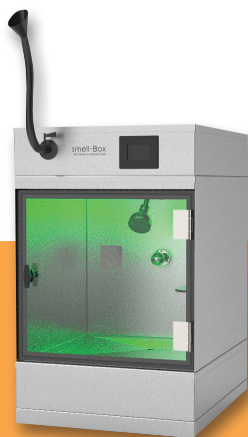

Evaluate all types of products - candles, perfumes, personal care, home care - while simulating any room volume.

You can see many samples with reliable and reproducible results.

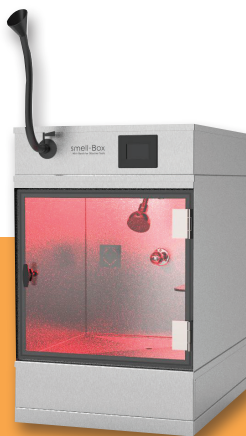

Purge quickly to be ready for the next test.

Multiply the amount of olfactory tests for the same space: cabins can be integrated under a work surface and stackable.
