New generation hood

Process optimisation and security

Capture at source of vapours, fumes and powders

provide you a

# NEW EXPERIENCE

## OUR PUSH-PULL TECHNOLOGY

The alternative of hoods and sorbonnes for large surfaces that captures 99% of the pollutants at the source.

An innovative air extraction system for the processes of polluting activity in laboratory & production, adaptable according to your constraints and needs.

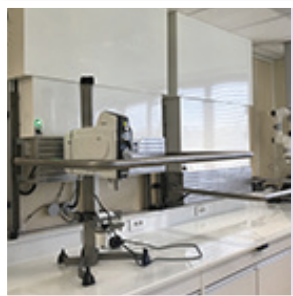

**ABSOLUTE  
PROTECTION  
OF OPERATORS**

**REDUCTION OF ENERGY  
COSTS : - 6 %**

**BESPOKE  
REALIZATION**
