

# smart-Booth

Innovative Booth for Scent Test

The best sensory evaluation booth ever !

✓ Technology

Air/ Water tightness, efficient air diffusion, pre-programmed protocols

✓ Optimization

Scheduling, linking, and booths monitoring

✓ Industrial Design

Integration into Consumer or Frangance Development centers

# KEY FEATURES

- Neutral Environment
- Non-porous composition
- Resistant to skin care products
- Easily maintainable

## KEY STRENGTHS

- Hermetic Oculus
- No water retention / odor
- Easy cleaning and maintenance
- Resistance to all skin care products

## AUTOMATION

- Automatic management of each cabin
- Preprogrammed protocols
- LED lighting management
- Waterlight Power plus
- Temperature/ humidity monitoring

## AIR FLOW

- High performance cleaning mode
- Adjustable airtight damper with flowmeter
- LEL detection system
- Low flow up to 1 vol/ h

## WATER SUPPLY

- Water temperature setting
- Selection of water supply (sink, shower, hand shower, bath)
- Water retention of the shower tray / sink for flowering test

## CONNECTIVITY

- Cabin management software
- Live monitoring, traceability and warning (sms, email)
- Creation of your own protocols
- Scheduled test protocols
- Link multiple Smart-Booths for simultaneous testing
- Integrated evaluation module
